# 01

## OUR MISSION- TO HELP EVERY CHILD REALIZE THEIR POTENTIAL

Tripura Foundation was established in 1989 to uplift children through transformative education and combat hunger for those in need. Our vision is a world filled with joy, compassion, love, and Food for All.

We believe every child has the potential to be intelligent, happy, healthy, and that all in the world should have food. Our long-term, ambitious goals aim to help children worldwide realize their potential and become today's leaders, creating a more equitable world for themselves and future generations. We invite everyone to join us to feed the hungry with great love and join our historic Food for All movement for the ending of hunger and suffering.

# 1.1

## WHAT WE DO

At Tripura Foundation, we believe that by living love and helping those in need, we can create a world of HoPE—Heaven on Planet Earth. We dedicate ourselves to uplifting young minds through **transformative education** while **addressing the urgent needs of the hungry**.

Dr. Pillai's Phonemic Intelligence (PI), a scientifically backed educational technology, enhances intelligence and cultivates compassionate leaders, changing destinies for the better.

Our main PI initiatives:

- **Hope Learning Stations:**

Operating 167 centers, we empower 6,054 children in rural India with after-school programs.

- **PI School Program:**

Expanding PI to African schools, propelling our mission to uplift children world-wide.

- **Do PI With Me:**

This free online community offers PI sessions in multiple languages for children and parents.

Additionally, we address the urgent needs of the hungry and abandoned elders:

- **Food for All:**

Deliver protein-rich meals to those in need, in India, South Africa and the US, ensuring no one goes hungry.

- **Hope for the Elderly:**

Inspired by the compassion of the children, this program provides life-saving support to destitute elders in their communities.

# 1.2

## 2023- A VISION TO FEED THE WORLD: FOOD FOR ALL

With deep gratitude, we reflect on the incredible impact your love, prayers, and generosity made in 2023. Together, we launched new initiatives that spread hope and touched countless lives in need.

In April, Dr. Pillai shared his inspiring vision to feed the world, leading to the launch of our **Food for All** initiative. Thanks to your unwavering support, we served over **2.3 million meals filled with love in 59 countries**, bringing nourishment and hope to so many.

We also expanded Dr. Pillai's transformative **Phonemic Intelligence (PI)** educational technology to South Africa, uplifting the lives of children and setting them on a path to brighter futures. Your continued generosity enabled us to support marginalized children across 14 states in India through our **Hope Learning Centers**, providing them with a unique after-school educational model that nurtures their growth.

Additionally, through **Hope for the Elderly**, we offered food and hygiene kits to abandoned seniors, ensuring they received the care and compassion they deserve.

We are profoundly grateful for your love and support throughout 2023. Together, we are making a lasting difference in the world!

## 02

# OUR WORK, OUTPUTS AND OUTCOMES

## 2.1

# PI PROGRAM- BRAIN-CHANGING EDUCATION REACHES SOUTH AFRICA

In late 2023, Dr. Pillai's Phonemic Intelligence (PI) educational technology was introduced to **primary schools in South Africa**, positively transforming the lives of children. Already, 650 children are practicing PI and reaping the benefits, with plans for nearly 3,000 more children across Africa to begin practicing PI in early 2024. This **7-minute brain exercise** enhances **learning, emotional resilience, and compassion**, creating a foundation for a brighter future.

"There is a grave need for social upliftment and balance in South Africa. We are aware of the vast potential that exists within all for change, but particularly in children, who will either give rise to a future equal to a crippling past, or a new tomorrow for SA, with the right aid," **said Dr. Sheylyn Pillay, PI Africa Lead.**

### Our main PI initiatives include:

- Hope Learning Centers: Operating **167 centers**, we empower **6,054 children** in rural India with after-school programs.
- PI School Program: **Expanding PI to South African schools**, propelling our mission to uplift children worldwide.
- Do PI With Me: **This free online community offers PI sessions in multiple languages** for children and parents.

# 2.2

## HOPE LEARNING STATIONS- AN EDUCATIONAL MODEL FOR MARGINALIZED CHILDREN

In recent years, despite increased enrolment in schools across India, dropout rates remain high, and the quality of education is low. **Dr. Pillai's Phonemic Intelligence (PI)** technology is transforming this landscape, providing **every child with an equal opportunity to learn and develop their full potential.**

At our Hope Stations, we employ a **holistic approach to child development**, offering love, care, nutrition, and essential academic support six days a week. This model, centered around regular PI practice, enhances **children's attention levels and learning capacity, significantly reducing the chances of school failure and dropout.** As a result, children attending Hope Stations are better prepared, motivated, and empowered to succeed in their educational journeys, contributing to a brighter future for themselves and their communities.

## FROM STRUGGLES TO SUCCESS: VINAY'S JOURNEY OF HOPE

Vinay Bharadwaj, a 5th-grade student from a low-income family, lives with his grandmother and sister in Joraila, Chhattisgarh. With his parents working out of state, Vinay faced significant challenges in his studies, particularly in Hindi and Math, and couldn't afford extra paid classes.

His life transformed when he joined the **Hope Learning Station (HLS)**—a unique model designed to uplift marginalized children like Vinay. Through the dedicated support of his teachers and regular **Phonemic Intelligence (PI) practice**, **Vinay's confidence and academic skills blossomed**. He now reads fluently in Hindi and solves complex math problems with ease.

Beyond academics, the **Hope Lead Program** has ignited Vinay's passion for **leadership and service, teaching him the true meaning of compassion**. Today, he dreams of becoming a doctor to serve the nation and help those in need.

Vinay's inspiring journey shows the transformative impact of our Hope Learning Center model. **Congratulations, Vinay—you are a true Hope Superstar!** The sky is the limit!

## 2.3

# HOPE FOR THE ELDERLY – ASSISTANCE FOR ABANDONED ELDERS

Elders often face immense challenges, struggling with **physical disabilities and chronic illnesses** due to inadequate medical care. Without family or community support, their meager government pensions are insufficient to sustain them, and the rising cost of food has only increased their vulnerability.

Yet, within this hardship lies a beacon of hope. When our Hope children come together to serve abandoned elders in their communities, their acts of compassion breathe new life into those who need it most. Our **Hope for The Elderly program was born from this spirit of empathy**, ensuring that elders receive the food, necessities, and love required to live with dignity. Witnessing our Hope children's dedication is profoundly inspiring, as it demonstrates how small acts of kindness can create ripples of change, fostering a sense of community and belonging among the eldersnity.

**101 abandoned elders served**

**1212 food and hygiene kits distributed**

**1010 Kg of rice delivered monthly**

# RAJKUWAR'S JOURNEY: FROM STRUGGLE TO STRENGTH THROUGH COMPASSION

Rajkuwar Lahare lives in a rural, remote village in Chhattisgarh. In her old age, she faced many challenges, struggling to feed and care for herself, leading to poor nutrition and declining health. But everything changed when she started receiving a Food & Hygiene kit from Tripura Foundation. She now has enough food, improved health, and renewed wellbeing, showing the powerful impact of compassionate support through our Hope for the Elderly program.

## 2.4

# FOOD FOR ALL – DR. PILLAI’S VISION TO FEED THE WORLD

Tripura Foundation had its origins in India in 2000 when we launched the preparation and delivery of hot meals to 1000 families in the slums of Chennai, Tamil Nadu. From that day, we created one of our core programs, Million Meals of Hope, and have served 15 million meals globally.

In **April 2023, Dr. Pillai announced his vision to feed the world** and asked us to continue feeding the hungry as much as possible and build on the success of Million Meals of Hope with great love, which has evolved into **Food for All**. Our Food for All initiative is Dr. Pillai’s commitment to initiate the ending of suffering and a historic movement to feed those who are

**2,430,519 meals served**

**59 states**

**Nutrition for the mind,  
body and soul**

# 2.5

## CREATING A CYCLE OF HOPE: PROVIDING JOBS AND SUSTAINABLE INCOME

We employ and train local villagers to work in our Hope Learning Stations. Supporting **local employment** provides hope to rural community members who would otherwise have to seek work away from home and their families. In addition, **we train our Hope teachers and continue to support them weekly** to deliver our Hope curriculum and support all our Hope children in their learning journey.

209 Teacher jobs

Local employment opportunities

Supporting Hope Stations
